

As an Indiana citizen I do support the Indiana DO NOT CALL LIST. It has come to my attention that various Banks have petitioned the FCC to gut the Indian do not call list through FCC petition #02-278. I urge the FCC to deny that petition and leave the do not call list intact. I do have a phone, pay the phone bill, and do not desire to have telemarketers disturb my privacy at all times. If and when my privacy starts to be legally violated by telemarketers I will remember who took active roles in that violation. So please deny the petition to gut Indiana's do not call list.
